Catalog #

Price

**1000      Realistic Figure, Customized Body      (starting price)      \$2,895.**

**Heads** are of museum quality, created from durable vinyl or silicone, amazingly lifelike in appearance and texture. Client can choose from one of our 840+ existing head molds.

**Hands** are of museum quality, created from durable vinyl or silicone, amazingly lifelike in appearance and texture. Client can choose from one of our 100+ pairs of existing hand molds to best suit the size and action of the figure. Poseable Hands are also available with bendable fingers to accept props.

**Eyes** are handmade and offered in various realistic colors.

**Hair** will be a 'standard style' created using a wig with slight implanting at the temples (if needed). The head will have implanted human hair eyebrows and attached eyelashes. Special custom implanted hair is available. Send us a photo so we can provide a quote.

**Body** is made of rigid urethane foam and customized to the position specified. Our vinyl or silicone heads and hands are attached. Price of figure is determined by complexity of work required. Please call for a quote.

**Arms** are wooden with joints in the elbow and shoulder and can be removed from the body for easy dressing. Shoulder width is adjustable. Arms are covered with padding

and stockinette covering to create a smooth surface.

**Figure Installation:** The left leg has an interior square metal tube from the heel to the knee and slides down over a heelplate post to stand independently. Heelplate post goes through a hole in the shoe, up into the square metal tube inside the figure's leg.

**3000      Realistic Figure, Flexible Foam Body      \$2,395.**

**Heads** are of museum quality, created from durable vinyl or silicone, amazingly lifelike in appearance and texture. Client can choose from one of our 840+ existing head molds.

**Hands** are of museum quality, created from durable vinyl or silicone, amazingly lifelike in appearance and texture. Client can choose from one of our 100+ pairs of existing hand molds to best suit the size and action of the figure. Poseable Hands are also available with bendable fingers to accept props.

**Eyes** are handmade and offered in various realistic colors.

**Hair** will be a 'standard style' created using a wig with slight implanting at the temples (if needed). The head will have implanted human hair eyebrows and attached eyelashes. Special custom implanted hair is available. Send us a photo so we can provide a quote.

**Body** is made of flexible urethane foam with annealed wire and steel interior armature, bendable at the neck, elbow, waist, hip, and knee. Bending points are reinforced to help the figure maintain its position. Realistic head and hands are attached to the body and can be removed for easy dressing.

**Arms** are made of the same armature and foam with a bolt-locking joint in the shoulder to 'fix' the arm in a desired pose. They have a quick-release shoulder attachment for easy dressing.

**Body measurements:** See size chart on website [www.museumfigures.com](http://www.museumfigures.com). Under the "Realistic Figures" tab, go to "Specs & Instructions" and click on the thumbnail for *Sizing and Specs for Realistic Figures*.

**Figure installation:** Both legs have an interior square metal tube from the heel to the knee that slides down over a heelplate post to stand independently (only one is needed to stand). Heelplate post goes through a hole in the shoe, up into the square metal tube inside the figure's leg. Heelplate is sold separately (#4001, #4002).

**Optional** external Waist Bracket stand (#4005) can eliminate the need to drill a hole in the shoe. A heelplate (#4001, #4002) is also required.

**3500      Realistic Figure, Military Man (Rigid Foam) Body      \$2,395.**

**Heads** are of museum quality, created from durable vinyl or silicone, amazingly lifelike in appearance and texture. Client can choose from one of our 840+ existing head molds.

**Hands** are of museum quality, created from durable vinyl or silicone, amazingly lifelike in appearance and texture. Client can choose from one of our 100+ pairs of existing hand molds to best suit the size and action of the figure. Poseable Hands are also available with bendable fingers to accept props.

**Eyes** are handmade and offered in various realistic colors.

**Hair** will be a ‘standard style’ created using a wig with slight implanting at the temples (if needed). The head will have implanted human hair eyebrows and attached eyelashes. Special custom implanted hair is available. Send us a photo so we can provide a quote.

**Body** is made of rigid urethane foam, with our realistic head and hands attached. Torso is made of a chest piece from neck to waist, and a hip piece from waist to thigh. The waist is a large ball and socket which allows some positioning of the figure. Legs are separate and attach to the hip with a section of PVC pipe in the left leg and a posable wooden joint in the right leg. A one-layer cotton T-shirt is put on the figure with a hook-and-loop strap that connects through the crotch.

**Arms** are wooden with joints in the elbow and shoulder and can be removed from the body for easy dressing. Shoulder width is adjustable. Arms are covered with padding and stockinette covering to create a smooth surface.

**Body measurements:** See size chart on website [www.museumfigures.com](http://www.museumfigures.com). Under the “Realistic Figures” tab, go to “Specs & Instructions” and click on the thumbnail for *Sizing and Specs for Realistic Figures*.

**Figure installation:** The left leg has an interior square metal tube from the heel to the knee that slides down over a heelplate post to stand independently. Heelplate post goes through a hole in the shoe, up into the square metal tube inside the figure’s leg. Heelplate is sold separately (#4001, #4002).

**Optional** external Waist Bracket stand (#4005) can eliminate the need to drill a hole in the shoe. A heelplate (#4001, #4002) is also required.

**4001      Small Heelplate      \$40.**

Black powder coated steel plate 5 ½” x 2 ½” x 3/16” thick with a ½” square 8” long steel post welded to the surface. This post goes up through the figure’s shoe and heel, into a square steel tube inside the figure’s leg. When used with the ETHAFOAM® Man/Woman the post goes into a sleeve that comes out the back of the calf. A 5/16” hole is drilled in each corner of the plate so that the plate can be screwed down to the floor. This heelplate can be used with the Flexible Foam Figure (#3000), Military Man Figure (#3500), and the ETHAFOAM® Man & Woman (#4100, #4105).

**4002      Large Heelplate      \$75.**

Black powder coated steel plate 12” x 12” x 3/16” thick with a ½” square 8” long steel post welded to the surface. This post goes up through the figure’s shoe and heel, into a square steel tube inside the figure’s leg. When used with the ETHAFOAM® Man/Woman the post goes into a sleeve that comes out the back of the calf. This heelplate can be used with the Flexible Foam Figure (#3000), Military Man Figure (#3500), and the ETHAFOAM® Man & Woman (#4100, #4105).

**4003      Padding Shirt      \$85.**

This padding shirt adds realistic bulk to the body, if needed, to pad out to the clothing. Two white cotton T-shirts are basted together with sculptured layers of polyester batting in between. A hook-and-loop strap at the bottom connects through the crotch to hold the shirt to the body. This padding shirt can be used with both the Flexible Foam Figure (#3000) and Military Man Figure (#3500). There are two sizes: regular and large.

**4005      Waist Bracket      \$120.**

The Waist Bracket is used to provide external support to a figure. Primarily used on a Military Man Figure (#3500) when the client does not want to drill a hole through the shoe to accept the heelplate, it is also appropriate for use with the ETHAFOAM® Man & Woman (#4100, #4105). The Waist Bracket is comprised of a telescoping powder coated steel post topped with an ETHAFOAM® block and nylon webbing strap that encircles the figure's waist for support. The Waist Bracket requires a heelplate (#4001 or #4002), sold separately. It is designed to fit over the heelplate's vertical 8" spike.

**4100 / 4105      ETHAFOAM® Man & Woman      (white covering) \$1,970.**

These figures have a stylized but realistic shape, and posability in the shoulders, elbows, wrist, and waist, similar to our Military Man Realistic Figure (#3500) but with the archival quality of ETHAFOAM® to display your artifact garments with a more realistic look. They have an internal anodized aluminum pole structure and joints, posable waist, and polyester stockinette covering. These figures also include jointed arms with hands, and a Conservation Head with facial features (#5020). The fingers are connected and cannot accept gloves. The ETHAFOAM® Man and Woman have a powder coated steel square tube coming out of the calf that fits on our heelplate (#4001, #4002). Optional Waist Bracket (#4005) can be used to stand the figure. **Black, grey, oatmeal, and other colored covers available; please call for prices.**

**4150 / 4155      Economy ETHAFOAM® Man & Woman      (white covering) \$1,450.**

We have taken the realistic shape and structure of the ETHAFOAM® Man & Woman (#4100, #4105) and simplified it to create these figures. Both have a one-piece torso from shoulder to hip, and the arms have flexible cable in the elbows and wrists and an easy-snap fitting at the shoulder. They also include a Conservation Head with facial features (#5020), hands, and round or square steel base in silver or black. The fingers are connected and cannot accept gloves. The Economy ETHAFOAM® Man/Woman is supported by an anodized aluminum pole that goes through the left leg. The foot sits in front of the pole to accept a shoe. The right leg is attached by flexible cable and can be positioned freely. **Black, grey, oatmeal, and other colored covers available; please call for prices.**

**4160 / 4165 Seated Economy ETHAFOAM® Man & Woman** (white covering) \$1,540.

These forms are seated variations of the Economy ETHAFOAM® Man & Woman (#4150, #4155). In each, the torso appears solid from shoulder to hip but has some flexible cable in the waist to allow for minor posing. The arms have flexible cable in the elbows and wrists and an easy-snap fitting at the shoulder. They also include a Conservation Head with facial features (#5020) and hands. The fingers are connected and cannot accept gloves. The legs are attached by flexible cable at the hip and at the knee and can be positioned freely.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**4300 Dress Form, medium or small** (white covering) \$675.

These forms are made of solid ETHAFOAM® with a polyester stockinette covering. They have a more realistic shape than our Classic Forms (#4500, #5000) and can be great solutions for a "no-frills" display of artifact garments. The Dress Form can be carved down or padded up to fit your garment. Forms mount on a silver or black 1" anodized aluminum pole, 41" in length, and are adjustable in height. A powder coated steel base in your choice of round or square, silver or black, is included.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**4400 Suit Form, medium or large** (white covering) \$675.

These forms are made of solid ETHAFOAM® with a polyester stockinette covering. They have a more realistic shape than our Classic Forms (#4500, #5000) and can be great solutions for a "no-frills" display of artifact garments. The shoulders are attached by an easy-snap fitting (beneath the covering) and are removable. Forms can be carved down or padded up to fit your garment. They mount on a silver or black 1" anodized aluminum pole, 41" in length, and are adjustable in height. A powder coated steel base in your choice of round or square, silver or black, is included.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**4500 Classic Economy Form, adult male or female (white covering) \$755.**

These forms are comprised of a chest, hip, and arms all made of solid ETHAFOAM®. The Forms are easily padded up or carved down to a desired shape and size. Arms have flexible cable in the elbows and an easy-snap fitting at the shoulder. Padding and cover are 100% polyester.

**Chest:** Your choice of large or small. They are interchangeable with the hips.

**Neck:** Choose from tall neck, which can accept an optional head (#5015) or flat neck, as shown.

**Hips:** Your choice of male or female. They are interchangeable with the chests.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**Stand:** These forms include three 1" diameter anodized aluminum poles (available in silver or black). The 48" long pole goes through the center of the chest and hip for a *center mount*. For *trouser mount*, the 34" (medium) pole goes in the off-set left leg hole and the 20" (short) pole connects the chest to the hip at the waist. Plastic collars with thumbscrews allow for fine adjustment of overall height and distance

between chest and hip. A powder coated steel base in your choice of round or square, silver or black, is included.

**Kit** of instructions, polyester padding, hex wrench, and t-pins is included.

**Optional items:** oval head #5015; feet #5050; classic hands #5100; thighs #5200; waist block #5300; shoulder buds #5400; padding shirt #5500.

**4600 Classic Economy Form, child (white covering) \$680.**

This form is comprised of a chest, hip, and arms all made of solid ETHAFOAM®. It is easily padded up or carved down to a desired shape and size. Arms have flexible cable in the elbows and an easy-snap fitting at the shoulder. Choose from tall neck, which can accept an optional head (#5015) or flat neck, as shown above. Padding and cover are 100% polyester.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**Stand:** This form includes three 1" diameter anodized aluminum poles (available in silver or black). Use the small pole to connect the chest and hip at the waist, and the medium pole in the off-set left leg hole. For center mount, use the longest pole through the chest and hip. Plastic collars with thumbscrews allow for fine adjustment of overall height and distance between chest and hip. A powder coated steel base in your choice of round or square, silver or black, is included.

**Kit** of instructions, polyester padding, hex wrench, and t-pins is included.

**Optional items:** oval head #5015; feet #5050; classic hands #5100; thighs #5200; waist block #5300; shoulder buds #5400; padding shirt #5500.

**5000 Classic Adjustable Form, adult male or female (white covering) \$910.**

These forms are comprised of a chest, hip, and arms all made of ETHAFOAM®. Each form is easily modified for shape, size, and height. Adjustable interior construction allows you to change the width of the shoulder, waist, and hip to fit different sized clothing. The arms have flexible cable in the elbows, and an easy-snap fitting at the shoulder. Padding and cover are 100% polyester.

**Chest:** Your choice of large or small. They are interchangeable with the hips.

**Neck:** Choose from tall neck, which can accept an optional head (#5015) as shown, or flat neck, as shown in the Classic Economy Form (#4500).

**Hips:** Your choice of male or female. They are interchangeable with the chests.

**Black, grey, oatmeal, and other colored covering options; please call to discuss.**

**Stand:** These forms include three 1" diameter anodized aluminum poles (available in silver or black). The 48" long pole goes through the center of the chest and hip for a *center mount*. For *trouser mount*, the 34" (medium) pole goes in the off-set left leg hole and the

20" (short) pole connects the chest to the hip at the waist. Plastic collars with thumbscrews allow for fine adjustment of overall height and distance between chest and hip. A powder coated steel base in your choice of round or square, silver or black, is included.

**Kit** of instructions, polyester padding, hex wrench, and t-pins is included.

**Optional items:** oval head #5015; feet #5050; classic hands #5100; thighs #5200; waist block #5300; shoulder buds #5400; padding shirt #5500.

**5015 Classic Head, oval head – large, small, or child (white covering) \$100.**

These heads are made of ETHAFOAM®, padded with polyester batting and covered with a polyester stockinette. They fit on the tall neck of our Classic Forms. We generally match the head size to the chest size that you order: large, small, or child. The heads are featureless to ensure ethnic and gender anonymity for a wide range of artifact headwear.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5050 Classic Feet (pair) (white covering) \$135.**

Feet are made of ETHAFOAM®, padded with polyester batting, and covered with a polyester stockinette to match the Classic Forms. The feet go from the bottom of the foot to just below the knee and are articulated at the instep to accommodate a range of heel heights. Each foot attaches underneath the hip by means of a flexible plastic cable and hangs so it does not put pressure on the footwear.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5100 Classic 'mitten' hands (pair) (white covering) \$95.**

A simple hand shape is made of ETHAFOAM® and covered with polyester padding and stockinette. Hands attach to the forearms of the Classic Adjustable and Economy Forms by way of a flexible cable and can be retrofitted onto existing arms. Fingers are not separated and cannot accept a glove.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5155 Conservation Articulated Hands (pair) (white covering) \$280.**

The articulated hands are made of ETHAFOAM® with bendable aluminum wire inserted into the fingers to allow them to be set in various positions. They are covered in white cotton or polyester and connect to the ETHAFOAM® Man/Woman (#4100, #4105) and Economy ETHAFOAM® Man/Woman (#4150, #4155) forms, replacing their standard hands. The separated fingers also allow these hands to be used for display of artifact gloves and other hand coverings.  
**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5200 Classic Thighs (white covering) \$100.**

The thighs are additional pieces of ETHAFOAM® that fill in the long area of plastic cable noted in the Classic Feet (#5050). They are useful when filling out pant legs for a more realistic look. Covered with polyester padding and stockinette.  
**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5300 Waist Block \$30.**

This simple block of ETHAFOAM® fits onto the center pole to fill in the space between the chest and hip of our Classic Forms. It comes as a 2-inch-thick rectangular block with a hole drilled in the correct place and an adjustable plastic collar to position it along the 1" diameter anodized aluminum pole. Trim lines that match the waists of the male and female hips are marked for your convenience. You can carve it to fit your garment. No covering included.

**5400 Classic shoulder buds (pair) (white covering) \$70.**

These ETHAFOAM® pieces can take the place of classic arms to create the look of just shoulders. Sometimes these buds are preferred over arms, such as in the case of a dress with shoulder straps where full arms may detract from the display of the garment. Covered with polyester padding and stockinette.  
**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5500 Conservation Padding Shirt \$85.**

This padding shirt easily adds bulk to the body to pad out to the clothing. Two white cotton T-shirts are basted together with sculptured layers of conservation quality polyester batting in between. A hook-and-loop tab at the bottom connects through the crotch to hold the shirt to the body. This padding shirt can be used with any of the adult size Conservation Forms.

**5800 Baby Christening Gown Form** (white covering) \$205.

Originally designed for mounting christening gowns, this form is the size of a newborn baby. It is made of solid ETHAFOAM® with a polyester stockinette covering, and mounts on a 6.75" diameter powder coated steel round base with a 1" diameter anodized aluminum post, your choice of silver or black. The height is adjustable by sliding the form on the post, or by cutting the post down to a desired size.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**5900 Thin Chest Mount** (white covering) \$370.

Aimed to address shallow display cases, this form is only three inches thick from front to back. It is made of solid ETHAFOAM® with a polyester stockinette covering. Mount it on a floor stand, tabletop stand, or on the wall for a 'floating' look. There are two widths and both include 'epaulette' shoulder pieces to fit larger square-cut garments like football or hockey jerseys. See size chart on website [www.museumfigures.com](http://www.museumfigures.com). Under the "Conservation Forms" tab, go to "Specs & Instructions" and click on the thumbnail for *Sizing and Specs for Conservation Forms*.

**Stand Options:** All base and poles are available in silver or black. Standard tabletop setup uses a powder coated steel oval base and 24"h, 1" diameter anodized aluminum pole.

Other available bases are the 6.75" diameter round, 12" square, 13" diameter round, 3.25" round 'flange', and the wall mount that uses an ell bracket and flange.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6000 Classic Bust Form** (white covering) \$285.

If you need more than a head mount but not a full chest, this could be your answer. It uses our Classic Head (#5015), which sits atop a neck and shoulders that are the same size as our Small Classic Economy Form. The Classic Bust Form offers a simple option for display of long necklaces, scarves, and other draped neckwear. It is made of ETHAFOAM® with a polyester stockinette covering. Comes standard with powder coated steel oval base and a 24" anodized aluminum pole, available in silver or black.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6010 Storage Hat Mount** (white covering) \$55.

The Storage Hat Mount was designed for archivally appropriate storage of artifact headgear. It comes standard with a 6.75" diameter powder coated steel round base, and a 1" diameter anodized aluminum pole of various lengths, creating an overall height of 8", 11", or 15".

The pole and base are available in silver or black. A 6.5" x 5" semi-sphere of ETHAFOAM® covered with a polyester stockinette fits atop the stand. Volume discounts available.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6012      Display Hat Mount** (white covering) \$65.

The Display Hat Mount uses the same 6.5" x 5" semi-sphere of ETHAFOAM® as the Storage Hat Mount (#6010) covered with a polyester stockinette, but sits atop a thinner .375" (3/8") diameter anodized aluminum pole for a cleaner look when used for display. This mount also uses the 6.75" diameter powder coated steel round base and the pole and base are available in silver or black. The overall height is 16" and the pole can be cut down to fit your needs. Volume discounts are available.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6015      Head Mount, oval head – large, small, or child** (white covering) \$130.

The Head Mount uses our Classic Head (#5015) mounted on a 6.75" diameter powder coated steel round base in silver or black. This allows for the display or storage of headwear with a completely gender- and race-neutral faceless mount. Heights of large and small are 11.5" including base. Child size available.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6020      Head Mount with features, multiple iterations** (white covering) \$175.

These Head Mounts use our Conservation Heads with Features (#5020) that are designed for use with the ETHAFOAM® Man/Woman (#4100, #4105) and Economy ETHAFOAM® Man/Woman (#4150, #4155). They are covered with polyester stockinette and mount on a 6.75" diameter powder coated steel round base in silver or black. There are several iterations available in addition to the male (-244) and female (-092) shown here (please call for details).

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6500      Conservation Hanger** \$55.

An aluminum hanger is embedded inside a block of ETHAFOAM®, 15.5" across shoulders x 2" thick, front to back. The hanger has a contemporary shoulder slope and is padded with museum-quality 100% polyester batting and covered with polyester stockinette. Great for storage or simple display. Comes fully finished, and ready to use.

**Black, grey, oatmeal, and other colored covers available; please call for prices.**

**6600**

**Conservation Hanger Kit**

**\$35.**

An aluminum hanger is embedded inside a block of ETHAFOAM®, 15.5” across shoulders, 5” high, and 2” thick front to back. Carve your own shoulder slope angle and shoulder width (down to 12”) to fit your period costumes. Cover with the museum-quality padding and polyester stockinette cover included.

**6700**

**Conservation Hanger, Carve-Your-Own**

**(minimum order of 5) \$20.**

An aluminum hanger is embedded inside a block of ETHAFOAM®, 15.5” across shoulders, 5” high, and 2” thick front to back. Carve your own shoulder slope angle and shoulder width (down to 12”) to fit your period costumes. Cover with your own materials.
